Los Angeles, CA 90089-0173

Act by May 31st and we'll send you  
a FREE copy of this 308-page  
handbook!

Dear Valued customer,

Thank you for choosing GE Healthcare Life Sciences as your instrument provider.

**This is a friendly reminder that the warranty on your instrument(s) is about to expire.** We would like you to take this opportunity to put those instruments on a Service Agreement with GE Healthcare Services so that you can have predictable ownership costs, priority response time, and reliable instrument performance.

Your current Service Agreement(s):

Instrument(s)	Serial number(s)	Warranty expiration date
API Legacy IB OMX	29039552-OM06058	08/27/2014

To request a quote, learn more about our Service Agreement options, and obtain your free 308-page handbook "Recombinant Protein Purification", visit [www.gelifesciences.com/naserviceoffer](http://www.gelifesciences.com/naserviceoffer) for registration. Act fast because this book offer expires before your product warranty, and it is only available on our website when you visit before May 31st!

We look forward to working with you on all your service needs.

GE Healthcare Service Sales Team
